

Social Media and Our Privacy.....

Facebook is currently in the news regarding its privacy policies and we need to understand how our information is used on social media platforms.

Social Media has become a major part of both our personal and business lives. Whether interacting with friends and family or promoting our business their use has exploded over recent years.

Along with that growth there are significant risks to our personal information and how it's used or misused. There's a lot to understand and if we want to feel secure we need to be self informed.

We'll be adding information regularly so DO go and learn more by clicking the link below to our web page.

We have user guides to some of the popular platforms along with their privacy controls so that you can learn more.

Remember, things change fast in the social media world so you need to constantly be checking for privacy updates and change your settings according to your comfort zone

If you think you have an Identity Theft issue call us at the number below.

Social Media and Networking

Here are some of the typical kinds of personal information we give up to create a profile on a social media platform...

- Full name - particularly middle
- Date of Birth
- Hometown
- Relationship Status
- Schools, colleges and graduation dates
- Pet Names
- Other Affiliations, Interests and Hobbies

SOCIAL MEDIA PLATFORMS SELL HIGHLY TARGETED ADVERTISING THEREFORE THEY WANT TO GET US MUCH INFO ABOUT US AS THEY CAN
