

# Service Line Coverage from Buckeye Insurance Group

## **Most homeowners don't realize they are responsible for the repair or replacement of underground service lines from the street to their home.**

This sometimes unforeseen and costly exposure is not covered under most homeowners insurance policies. Service line coverage provides protection from an unexpected loss caused by a service line failure. This product protects the homeowner by extending coverage for damage to underground piping or wiring that connects a home to a public utility service provider or to a private system.

### **How does coverage work?**

For a small annual premium, the homeowner can obtain protection against a common loss event that averages \$6,000 per occurrence. The homeowner is responsible for the first \$500 (deductible) and then has coverage up to \$10,000 (limit).

**Contact your representative for more information about service line coverage.**

## **Perils**

- Wear and tear
- Rust
- Corrosion
- Decay
- Deterioration
- Hidden or latent defects
